About US

S.K. Textile is one of the manufacturers and exporters of Quality home textile products in Karur, the home textile hub of India. Incorporated in 1994 as a supplier of finished products to Merchant exporters and from 2003 onwards we became as direct exporter of innovative home textile products of International quality standards. We manufacture goods with looms under our direct control and our team of experienced technicians and categorize our service at various stages designing, weaving, stitching, printing, embroidering and finishing, thereby assuring you to keep the quality to deliver the consignment as per schedule.

Keeping good quality, time sensitive delivery and attractive prices are the distinguishable feature among our customers. Majorly we focus on Europe, Middle East, South Africa, USA, UK and Australia markets.

Why Us

We are experienced project managers operating in a fast moving, time-constrained world. Our team understands the pressures faced by today's businesses and is accustomed to making decisions in minutes and hours rather than days, weeks and months.

Quality

Quality is the key factor for our success. We strongly believe that the skills and technology need to be implemented without compromising on the quality of the final product. The traditional manufacturing skills employed over modern technology are complimented with emerging quality control systems. Utmost care is taken at every stage of production. Right from yarn to final packing our products undergo severe quality checks at all levels both in-house and through buyer's inspection.
